# TraceGains Networked Finished Goods

The CPG industry's first purpose-built solution for helping brands and their Co-Mans work better together.

- Manage information exchange across complex manufacturing chains.

- Simplify communication between Co-mans, brands, partners, and retailers.

- Manage compliance no matter who owns supplier relationships.

Networked Finished Goods

50%
**of customers use
Co-mans / Co-packers**

40%
**of customers
Co-man / Co-pack
for others**

Manage Complexity

- Manage documents across complex manufacturing relationships.
- Accurately map suppliers, items, manufacturing and packaging locations, and finished goods, no matter who owns the supplier relationship.

Simplify Communication

- Easily compile complex document packages for retailers, audits, and more.
- Share documents and communicate finished goods and component specifications with partners.
